

FRIDAY, OCTOBER 12, 1877.

Local Intelligence.

SATURDAY.

Several loads of gramma hay have arrived in town and was readily disposed of this week.

Potatoes, although somewhat scarce in the county, are coming in by the wagon load.

Remember the Social Party on Thursday evening next at the City Hall. Hudson Bros. are taking every pains to make it an agreeable occasion.

Hon. W. H. Hardy will leave Hardyville within a few days for Washington to contest the election of Hon. Hiram S. Stevens to be sent in the next Congress, as Delegate from Arizona.

The shipment of Peck bullion from the Aztec mill for tomorrow morning is only two bars, aggregating but \$3,417.44, a falling off from some cause, of nearly \$2,000 from the recent tri-weekly shipments.

Garibaldi came in today from Bill Wilcox's mountain with a cargo of jerked venison of excellent quality. He killed all he wanted of deer, antelope and turkey, but saw no wild life here.

An average essay of Black Warrior ore by B. & S. today, taking a piece from each of a dozen samples, they came out across the whole width of the ledge, and crushed together, went \$265.45. A single specimen assayed gave \$102.68.

Mr. Thomas Wilcox is now running the Montezuma Restaurant in his own account. Mr. Plumridge having withdrawn. Whitehead "dishes up good grub" and knows how to run a eating house equal to any individual in the Territory.

J. M. Bryan (Cretel), one of the successful freighters, and an old resident of Arizona, having come to the Territory as early as 1841, arrived from Greenock yesterday. Mr. Bryan is at present shipping barley into the Sandy country from Phoenix.

Joseph Marr, the efficient and gentlemanly manager of the Camp Verde post trader's store, came up on a visit yesterday. Mr. Marr has been connected with the Verde establishment some six years, and has given entire satisfaction to his employers.

Articles of Incorporation of the Signal Mining Company have been filed in the office of the Secretary of the Territory. Object: To carry on a business of mining and mining in Owen Mining District, Mohave County. The capital stock is \$100,000, divided into 100,000 shares.

Dock Smith came in from the Black Warrior last night, bringing with him a splendid specimen of the ore from the bottom of the 110-foot shaft. He says he made a blind grab at the dump and took the piece that his hand happened to light on. All the comment we have to make is that his hand happened to light on a very rich piece of silver ore, and if the average is like it the owners have a fortune.

Mr. Geo. E. Brown, we are sorry to learn, has tendered his resignation as Under Sheriff of Yavapai county, partly on account of poor health, and to be able to attend to other business in which he is interested. Mr. B. has proven himself to be an active, good officer, and in his stepping out, the County loses a good official. Mr. Brown intends visiting his ranch on the Agua Fria, for a few days, during which time he will arrange matters at that place.

Stores will close on Sunday.

From and after the first day of November, 1877, we, the merchants of Prescott, A. T., will not sell or deliver goods on Sundays:

C. P. HEAD & CO., J. GOLDWATER & BRO., L. BASHFORD & CO., J. G. CAMPBELL, W. M. BRYAN, B. & S. SPENCER, D. LEVY & CO., H. SELBIE & CO., ASHRA WOLLENBERG & A. BILLOW, E. HENDON, K. KELLY & STEPHENS, B. H. WEAVER, T. W. OTIS, ANDERS & ROWE, T. C. HAYDEN & CO., T. C. BRAY & DUKINS.

Elsewhere we have said that the movement to close the stores on Sunday was not especially a Christian measure, and yet it is so in harmony with the desires and plain injunctions of the Trustees of the Presbyterian Church that they propose to devote the collection to be taken on the first Sunday in November to the payment of the printer's bills, incurred in advertising posters, etc., to notify the people in advance in order that they may govern themselves accordingly.

The Territorial Treasurer will probably not be able to pay any more warrants on the general fund of the Territory before the first of January 1878. As he has just been called upon by S. & C. Co. bankers of San Francisco, through W. H. Fargo & Co. for \$2,000, interest on Territorial prison bonds held by them, the interest on which became due on the first day of October. He estimates that it will take very nearly the entire collection for the quarter ending Sept. 30, to take up these interest coupons, which are required to be paid out of the first money that comes into his hands.

DAY FIXED FOR THE EXECUTION OF LEWIS.—This morning Judge Tread performed the sequel to the painful duty imposed upon him by the law, which completes the death sentence of J. A. Lewis, by fixing the day for the execution on Friday, the 23rd day of November, 1877. Mr. Morgan, the attorney for Lewis, will make an effort in the Supreme Court for a new trial, and with that view has kept strict watch of the case at every step, and his papers all ready to present. Failing in that, commutation of sentence to imprisonment for life will probably be asked for.

MONDAY.

We called at the Photograph Gallery of Mr. D. F. Mitchell this morning and had an opportunity of examining his various views of Ancient ruins and the wonderful scenic pictures of nature's work such as Montezuma Wells, Stoneman's Lake, Hell Canyon, Verde River, Beaver House, etc., all of which are accurately taken and are just the thing to send to the states or elsewhere as presents to friends.

John Dixon, of Skull Valley, has rented the Saunders' farm one and a half miles north of Prescott, and is now busy moving his household effects, etc., to his new quarters. Mr. Dixon has found it necessary to make this move for the purpose of being within a reasonable distance of a school, whereby his little family of bright children may have an opportunity of attending a school. In selecting this location Mr. D. has splendid facilities for keeping his large band of cows and will be able to furnish the citizens of our village with pure milk.

The Tip-top Going Ahead.

Alex. Harris returned this morning from the Tip-top mill site where he has a contract to make 15,000 bricks for the Tip-top Silver Mining Company, for which he is to receive \$19 per thousand. The mill will be situated about three miles below Jack Swilling's house, and these bricks are intended for a roasting furnace, setting the boiler and engine, etc.

Mr. Gillett let a contract to Jack Swilling for five hundred cords of wood while Alex. was there. Several contracts have been let for sinking shafts, etc., and Mr. Gillett has about thirty men at work on the mine and about the mill site. Everything is represented to be booming in that locality, and the mill will be up and running just as soon as money and enterprise can possibly bring it from San Francisco and set it up. There appears to be more work and less foolishness about the operations at the Tip-top than anything that has hitherto been undertaken on so large a scale in Arizona. We expect, within less than a year, to be chronicling the shipments of hundreds of thousands per month from Humboldt district.

John M. Shackelford, a native of Kentucky, aged seventy years, who has resided on this coast for more than a quarter of a century, died at his ranch on Duck Creek, near the Upper Gila in Grant county, New Mexico, on the 17th of September. He was married on the 17th of September, 1830, to a daughter of a pioneer settler, and lived in the same place with his family, and being old and feeble, found the trip a hard one, besides the labor incident to making a new home in a comparatively wilderness, overtaxed his strength, and finally the excitement of the recent Indian outrages in his neighborhood proved too much for his physical constitution and, it is believed, hastened his death. Uncle Johnny Shackelford was well known throughout the northern counties of California as an honest, industrious Christian gentleman. He was a first cousin to Gen. John A. Shackelford of Kentucky.

FROM GREEN VALLEY.—We are in receipt of a communication from a resident of the Tonto Basin country, evidently for publication, complaining bitterly of the poor protection settlers have in that section, and how much they would gladly publish if it were possible to read the manuscript, which comes to us on a postal, and so finely written that a magnifying glass has to be brought to bear upon it to make out what it is intended for. The correspondent advocates the abandonment of Camp McDowell, and the establishing of a new post in Tonto Basin. Every person, seemingly, has an axe to grind.

FOR ALEXANDRIA.—Messrs. Alexander and Bullman sent out the teams of Fulton and Crow, this morning, loaded to their fullest extent with supplies for their store at that place. With the development of several rich leads in the vicinity of the Peck and the large number of miners constantly joining hands with the pioneers of the district, a large amount of goods is consumed at Alexandria in the flourishing camp of Alexander.

FROM SALT RIVER.—Mr. G. S. Chenoweth arrived on Saturday from Phoenix with a load of sweet potatoes and sold the whole lot to Mr. James Patterson, delivering them at Mr. Patterson's road camp on the Hassayampa. The products of Salt River Valley find ready sale at present in this section and at remunerative prices, and in turn the residents of that valley purchase lumber which is taken back by the returning teams and is there used in beautifying the valuable homes they have selected on the banks of the Salinas river.

Hon. L. A. Stevens returned from Salt River yesterday with two teams of four mules each loaded with bran shorts and barley, about 3,200 pounds to the team. They came over the Black Canyon route, and although the road is somewhat rough and washed out in places they found no difficulty in bringing their loads right along. They will start back for another load on Wednesday.

NOT UNDER SHERIFF BUT DEPUTY.—On Saturday we erroneously stated that N. P. Pierce had been appointed Under Sheriff Vice Geo. E. Brown, resigned. Sheriff Bowers informs us that it was James S. Giles who received the appointment of Under Sheriff, and N. P. Pierce that of Deputy. Giles who has been in the office for some time, thoroughly understands the duties of his position.

We were honored this afternoon with a call from Capt. J. W. Summerhays, who is at present riding Whipple, and constitutes one of the military corps now in session. The Captain is accompanied by Mr. S. S. M. is, by the way, one of the most highly accomplished ladies in the Army, and is certainly fortunate in having so excellent an officer and gentleman for a husband.

Judge Walsh and Ford Henry returned this afternoon from an extended trip to the mines of Turkey Creek, Peck, Bradshaw and Humboldt districts, and were pleased with the mining outlook at those places, and especially in the Humboldt where they represent the country as one mass of quartz carrying a large per cent of precious metals.

Gus Rosenburg returned, yesterday morning from San Francisco, with his wife, who has been spending several months in that metropolis recruiting impaired health which was occasioned by overtaxation at the bed side of her two beautiful children that succumbed to that dreadful disease that has carried so many of our little innocent ones to a home of rest.

NEW ROAD.—We are informed by an old freighter, who has been with a load over the new road, now being constructed, that it is quite creditable, with the exception of some points where the grades are too narrow and will not admit of a 12-mile team making the turn.

R. A. Hussey appeared on our streets this morning for the first time since his accident, some two months ago when an enlargement gave away, and precipitated him and horse into a gulch below. Mr. H. falling under his steel receiving serious injuries.

Dr. Thiele with a load of medicines and surgical instruments left this morning for Greenwood accompanied by his eldest son, where he intends to reside. The Doctor takes a good supply of medicine and with his tact in using them will we believe do well.

James Patterson the road builder is in town making purchases of supplies for his camp and reports that the road will be completed to the Turkey creek divide by Saturday next.

R. H. Burnister received a sample of ore on Saturday from the Mountain Boy, a mine in the Bradshaw mountains that attracted considerable attention in consequence of the presence of bright gold which it showed on every side.

Capt. Woodruff, from Camp Mojave, and Capt. Corlies, from Camp McDowell, are at Fort Whipple.

LEGAL.

Application for a Patent.
